Intelligent Soft 4D Massage Mechanism

From very soft to firm, Brio adapts the depth of massage constantly during each programmed session. Soft-to-the-touch massage rollers recreate the sensation of human thumbs soothing your back, neck, hips, and gluteus muscles.

L-Track Design

A groundbreaking massage mechanism track offering coverage from your neck down to your gluteus muscles, while not missing any of the spots in between. The curves of the L-Track are also designed to help the massage rollers conform to the shape of your back.

Automatic Body Scan

Brio's automatic body scan determines your shoulder position and customizes each massage to your unique body type. Whether you're 5-feet tall...6-foot 5 or anything in between, Brio will adapt its massage to you.

Full Body Air Massage Function

There's no better way to heal fatigued extremities than through air compression movements. Brio delivers compression massage covering fingertips through shoulders, and hips down to feet, embracing sore arms and reinvigorating tired legs.

Foot Rollers

Gentle foot rolling action stimulates, relieves, and heals tired feet. Brio's foot rollers have been carefully designed to avoid over-stimulating the soles of your feet.

Infrared Heat

Brio delivers relaxing heat in the lower back and the calves. Cradled by Brio and surrounded by warmth, this massage chair will take you on the trip of your dreams.

Automatic Reclining Function

To provide individual comfort for any user, the seat back can be reclined up to 160°, while the footrest can be adjusted up to 80°.

True Zero Gravity®

At the push of a button, improve blood circulation and alleviate pressure on the joints and spine with Positive Posture's proprietary True Zero Gravity position.

Wall Hugging

Designed to fit almost anywhere, the unique wall hugging technology only requires 4" (10 cm) between the backrest and the wall.

Simple Remote Control

Brio's programs are easy to find and select. Effortlessly move through intuitive menus, select what you want, and relax. Brio's remote combines style and functional simplicity.
