

MA10

ZENGINEERED® FOR COMFORT

Panasonic

ZENGINEERED

\zen-juh-neeer\ *verb*: To artfully blend ancient ideas of meditation and intuition with unsurpassed state of the art technology

Compact design meets contemporary styling, and powerful traditional massage techniques deliver exceptional full-back therapy in the Panasonic MA10.

Designed to invigorate and increase blood flow, the MA10 promotes deep muscle relaxation, helps relieve stress, and contributes to your sense of health and well-being. Its revolutionary 3D mechanism recreates centuries-old Chinese massage techniques that focus on the pressure points of the neck and back.

Choose from four thoughtfully choreographed full body programs: deep massage, Swedish massage, lower back massage, and neck and shoulder massage. Manual selections allow you to focus relief on specific areas.

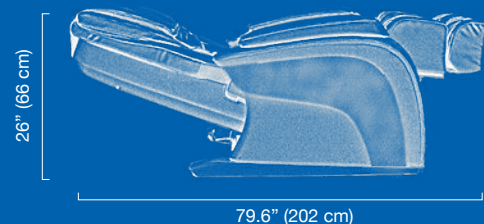

The MA10 is sensibly priced at just \$2,499.

FEATURES:

- Panasonic proprietary 3D, 2-roller back massage mechanism
- Body scanning automatically customizes the massage to the user
- Air ottoman system with 14 individual air cells
- 160-degree auto recline and restore functions
- Four programmed massages: deep, Swedish, lower back, and neck and shoulder massage
- Upper Body: Various manual back, neck massage options that can be customized by the user for a focused massage
- Lower Body: Customizable calf and foot manual air massage and a leg stretch option
- 7-color LED trimming on the remote to promote deep relaxation in a darkened room
- Rear wheels make moving and cleaning easy
